

Cuts

Great job you remembered the gloves

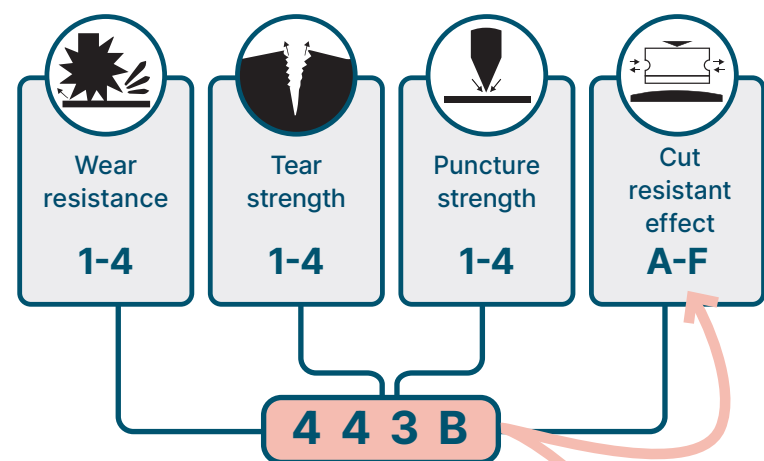

At Bravida, we always wear gloves while working. Cuts can be disabling, and we want you to get home safely.

1. Choose the right glove for the task

3. Labeling of the glove

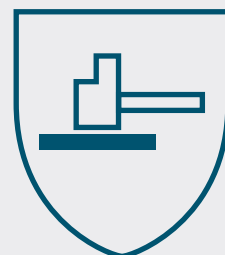

2. A glove meets Bravida's requirements, if it is at least cut resistant type B

4. The cut resistant effect is evident of the last letter of the glove labeling

EN 338:2016
