

Bravida Denmark signs a framework agreement with Copenhagen airports

Bravida Denmark has signed a framework agreement with Københavns Lufthavne A/S to provide maintenance services relating to electrics, ventilation, cooling, plumbing and heating at Copenhagen's Kastrup and Roskilde airports.

Københavns Lufthavne A/S owns, maintains and develops the properties and facilities at Kastrup and Roskilde airports. The various contracts awarded to Bravida in the framework agreement include areas such as electrics, ventilation, cooling, plumbing and heating.

Johnny Brandt, Regional Manager for Region East at Bravida Denmark comments:

“We are very pleased to have been selected for the framework agreement by Københavns Lufthavne A/S. Our goal is to be the leading provider of energy efficient services, and Københavns Lufthavne is just the right customer for this goal. Among other things, we will increase the level of recycling and assess everything we remove for possible reuse in other renovation projects.”

The framework agreement runs from September 2023 to September 2027, with the possibility of activating an extension.
